

ÁTAWIŠAMATAŠ

"I Love You All"

Home visits and parenting education opportunities focused on health and cultural connections, social engagement and cultural activities to support family and community connections utilizing Johns Hopkins University Family Spirit Home Visiting Curriculum.

OBJECTIVES

- Offer a minimum of 8 educational/cultural opportunities to enrolled families per year.
- Have 75% of capacity enrollment in the Átawišamataš program in year 2, increase 5% each year for years 3-5.
- 75% of participants maintain engagement for 3 years with the program.
- Home visitors will utilize Prenatal Loop to make contact with newly expectant mothers within 48 business hours of consult to offer services.
- By the Y2 EOQ1 have SOPs and enrollment guidelines in place.
- Prenatal Loop workstream will meet monthly to case manage and go over processes within MCH programs to ensure continuity of care.
- Establish bi-weekly collaboration within Yellowhawk departments.
- Communicate and collaborate with various community stakeholders at least once a month.
- By the EOY5 identify and implement cultural adaptations to the Átawišamataš program.

VISION STATEMENT

To cultivate a resilient and healthy Tribal community where mothers, children, and their caretakers receive exceptional, culturally respectful healthcare, fostering a supportive environment that empowers families to thrive and uphold our traditions for future generations.

GOALS

Encourage, support and, promote stronger, healthier families.

Build and ensure a quality and sustainable home visiting program.

Embed ourselves in our community – collaborate with community stakeholders to engage wraparound care for patients and families.
